

SAVANNAH MARINE TERMINAL

Bulk Material Handling • Food Grade Storage

Summer 2017

➤ View Our Facility & Services

If it's a bulk or heavy-lift product, SMT can handle it.

Grain, granite, logs, coil, liquid—we ship these and more with the utmost care and expediency. That's because, since we began transloading in 2002, we have heavily invested in our facilities, equipment and other infrastructure. We look forward to growing with you.

➤ We will build for your business

Do you see a product or service that doesn't exist at our facility? That was the case with one of our clients. So on our 40-plus acres we built a log transload yard exclusively for this customer. We love the challenge of finding a solution and making things happen for a potential client. Maybe we could do something similar for you? Let us know.

Working to better serve you

We're adding a business development manager/customer relations specialist to our team. This person will anticipate your needs, provide custom service and stay in touch to make sure you get the best possible results for your business.

Customer portal - coming soon!

Our up-to-the-minute, mobile-friendly account management system will allow you to track your products in real time. You will also be able to access invoices, insert shipment weights remotely and keep close watch on your account.

➤ We have new blending capabilities

Our state-of-the-art blending facility allows us to blend products from multiple rail cars as they are loaded into containers. In fact, our blending facility is the only one of its kind on the East Coast, and it will ensure your products meet composite quality parameters such as protein, fat, fiber, color, moisture and ash.

Our Mission

Savannah Marine Terminal is a container transloading company, located 3 miles from the Port of Savannah, that specializes in handling bulk materials, food grade and heavy lift items.

Being unique can mean many things, but to us it is delivering creative solutions to our clients.

We are a cutting-edge company that believes in automation and also stands firm on our family-owned values. SMT is dedicated to moving your product efficiently and at the lowest possible cost.
